REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant invention is drawn to a method of preparing polyamides that comprises the step of heat conditioning a mixture comprising titanium dioxide to produce a titanium dioxide catalyst having a BET surface area in the range from 5 to 30 m²/g , wherein the conditioned titanium dioxide catalyst has an equivalent catalytic activity when compared with the unconditioned titanium dioxide under identical process parameters.

While the processes of preparing polyamides using TiO₂ with BET surface area corresponding to the claimed BET surface area as a catalyst is well known in the art, the step of heat conditioning of mixtures comprising TiO₂ which step does not change the catalytic activity of the TiO₂ based catalyst is not known in the art. As evidenced from the disclosure, in addition, the amount of heat conditioned catalyst in the final polymer is decreased, while the catalytic activity remain the same.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. JP 1-201023 discloses stabilization of TiO₂ based catalysts (prevention of deterioration of its catalytic ability due to the reduction of its specific surface area at the time of heating and transition to rutile phase) by incorporating a heat stabilizer selected from among specified metallic elements into anatase type titanium dioxide. The reference further supports the fact known in the art that reduction in surface area reduced catalytic activity, which makes finding of the present specification to the contrary unexpected from the common knowledge in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irina S. Zemel whose telephone number is (571)272-0577. The examiner can normally be reached on Monday-Friday 9-5.
